- **Bolted Shelving**
- **Rivet Shelving**
- **Gondola Shelving**
- **Library Shelving**
- **Mobile Shelving**
- **Warehouse Shelving**
- **Long Span Shelving**

MEZZANINE FLOORS

Krost Shelving provides custom designed mezzanine floor systems designed to maximise vertical space and increase storage capacity within warehouses, distribution centres, and industrial facilities. These cost-effective solutions allow businesses to expand usable floor space without the need for new building construction.

Structural Mezzanine Floors

Structural mezzanine floors are free-standing platforms supported by a steel framework. They provide a versatile solution for creating additional storage, workspace, or office areas within a facility.

Rack-Supported Mezzanine Floors

Rack-supported mezzanine floors use pallet racking as the structural support for the upper level. This integrated system maximises storage capacity while efficiently utilising both vertical and floor space.

SERVICE OFFERINGS

THE BEST STORAGE SOLUTIONS IN AFRICA!

- CONSULTATION & DESIGN
- INSTALLATION
- RACKING INSPECTIONS
- MAINTENANCE & SUPPORT

Racking Inspections & Safety Compliance

APPROVED sema INSPECTOR

Our SEMA-approved on-site racking inspector conducts detailed inspections to identify any potential risks, damage, overloading risks and structural concerns. These inspections help businesses maintain safe working environments while ensuring their racking systems comply with recognised industry safety standards.

Through regular inspections and expert recommendations, we help clients protect their staff, inventory and operational efficiency.
