RAGMAX - Butterfly Valves

1000 / 2000 / 3000 / 4000 / 5000 / 7000 / 8000

RAGMAX 1000 ▷

Extreme RAGMAX coating on St/St base disc complete with PECU high wear liner and S/S431 shaft. Developed for ultimate protection against wear, ideal for heavy slurries in control and on/off applications.

RAGMAX 2000 ▷

Standard RAGMAX coating on St/St base disc complete with PECU high wear liner and S/S431 shaft. Developed for protection against wear, ideal for medium to heavy slurries in control and on/off applications.

RAGMAX 3000 ▷

St/St disc with mechanically locked over moulding of high wear PECU, complete with PECU high wear liner and S/S431 shaft. Developed for protection against wear, ideal for slurries in control and on/off applications where some acids appear.

RAGMAX 4000 ▷

Standard St/St disc complete with PECU high wear liner and S/S403 shaft. Developed for protection against liner wear, ideal for dirty water or where EPDM liners fail in control and on/off applications. PECU is approximately 50 times more wear resistant than EPDM.

RAGMAX 5000 ▷

- Cost-Effective Valve

Wafer Concentric Butterfly Valve features a cartridge type seat, streamlined disc and strong stem-to-disc connection for easy use in many industrial applications such as food and beverage, pulp and paper, chemical, mining, water treatment, power plants, etc.

RAGMAX 5000 ▷

Standard St/St disc complete with EPDM liner and S/S403 shaft. Standard Butterfly Valve for water and air control and on/off applications.

RAGMAX 7000 ▷

Standard St/St disc complete with high temperature liner and S/S403 shaft. Developed for protection against high temperature air and water control and on/off applications.

RAGMAX 8000 ▷

Wafer High Performance Eccentric Butterfly Valve provides a cost-effective solution for a wide range of applications where bubble-tight shut off is required.
